ABOUT VAVENZI

VAVENZI is a leader in the design and manufacturing of luxury bathroom vanities for residential, high-rise condo and hospitality markets. Founded in 2002, the factory initially consisted of an area of 1,070 square feet. Now, it surrounds a production and storage area of 110,000 square feet and is located in Izmir, Turkey. Vavenzi has developed into a world class design and production center with high-tech machines and dedicated employees that drive the business forward.
Vavenzi has more than 17 years of experience in the architectural design-build sector. Our ability to come up with architectural solutions to customer specific projects, our passion for design, as well as our determination to improve design and quality processes are the main reasons behind our continuous growth.
We pride ourselves in working with leading European material and technology to be able to provide our clients with the high standards they expect.
Vavenzi's team of seasoned architects and design professionals have a vast knowledge of current trends and designs. We are dedicated to providing a professional consulting service to meet all your design and budget needs.

Custom packages can be offered alongside cabinet and furniture packages if needed, so that the final design is truly a unique work of art.

We look forward to working with you on your next project.

VALUES AND MISSIONS

- We are dedicated to producing quality goods which satisfy customers' needs.
- We strive to continue building long-term "loyal customer/strategic partner" relationships based on mutual trust.
- To continuously create a safe, healthy and happy working environment for our employees.

TECHNICAL SPECIFICATIONS

- The vanities are made from 18mm thick MDF.
- Blum soft-close hinges are used.
- Blum Tandem box drawer rails are used.
- The vanities have integrated profile handles.
- The vanity doors have a melamine, lacquered and veneer surface.
